Following our CSA introduced this summer, we are pleased to offer a similar arrangement for the coming Fall and Winter months. By prepaying for a share of our farm's produce, you will receive a box of vegetables approximately every other week, including a wide variety of storage crops grown and harvested during the summer and fall, crops that are able to cope with freezing temperatures, and some items grown during the winter months in our unheated greenhouse. We will also augment what we have available with a few items grown by our friends at Willoughby Farm, located a short distance from us in Pittsfield.

Due to the nature of a Fall-Winter CSA, the number of shares we can offer will be limited to the quantity of produce that we are able to harvest and store. Priority will be given to preexisting customers.

Applications and half payment must be received before October 1. Remaining half of payment to be made at or prior to the first pick up.
